Liste over databaser, som indeholder primær litteratur

Database	Omfang	Bemærkning
Embase https://www.embase.com/	+ 29 millioner citationer. Fokus ligger på medicin og farmakologi.	Kræver abonnement.
PubMed (MEDLINE) United States National Library of Medicine http://www.pubmed.ncbi.nlm.nih.gov	+ 25 millioner. Fokus ligger på medicin, biomedicin og biovidenskab.	Gratis adgang. PudMed inkluderer alt indhold i MEDLINE og yderligere in-process citationer før de er indekserede i MEDLINE.
CINAHL Cumulative Index to Nursing and Allied Health Literature http://www.ebsco.com/products/research-databases/cinahl-database	Ukendt, men henter indhold fra over 1.300 journaler.	Kræver abonnement.
Cochrane Central Register of Controlled Trials (CENTRAL) Cochrane Library http://www.cochranelibrary.com/central	+ 1.800.000 RCT'er	Gratis adgang.
PsycInfo American Psychological Association http://www.apa.org/pubs/databases/psycinfo	+ 5.000.000 Litteratursammendrag indenfor psykologi.	Kræver abonnement.
PeDRO The Physiotherapy Evidence Database http://www.pedro.org.au	+ 54.000 studier Fokus ligger på fysioterapi.	Gratis adgang.
OTSeeker Baseret i Australien http://www.otseeker.com	+ 9.000 RCTs. Fokus ligger på ergoterapi.	Gratis adgang.
Clinicaltrials.gov U.S. National Library of Medicine http://www.clinicaltrials.gov	+ 400.000 studier	Gratis adgang. Inkluderer også studier før og under aktuel udførelse.

Søgefiltre til identifikation af primær litteratur (RCT)

Søgefiltre efter primær litteratur i databaser

Søgningens omfang afhænger af sygdomsområde, fokus og tid/ressourcer.

Ofte giver større databaser mulighed for at begrænse søgningen til en bestemt publikationstype, f.eks. *randomized controlled trial*, hvormed søgningen begrænses. Disse begrænsninger på publikationstype er dog ikke altid tilstrækkeligt sensitivt og derfor er der udarbejdet søgefiltre til at identificere yderligere relevant litteratur. Disse kan frit kopieres ind i søgefeltet med tilføjelse af specifikke emneord inden for området, som ønskes afdækket.
